## ➤ EDUCATION

---

### Galgotias University

Bachelor of Technology - Computer Science and Engineering, 8.22 CGPA

2020- 2024

## ➤ Work EXPERIENCE

---

### INTERNSHIP

#### Appsmith

Front-end / web Develop - (Intern)

June 2023 – Aug 2023, Remote

- Created a dynamic web page layout using Js and HTML , CSS with contribute the open source Project Using Basic layout.
- **Impact** : Creating a dynamic URL for navigating from one page to another using HTML and JavaScript.
- **Project** : Through Gained knowledge Working a Intern Project for using git hub contribution in Team.
- **Git-Hub Project Link** : [Project-Link](#)

## ➤ PROJECTS

---

**Food-Delivery Application - Food-Del app with User Friendly UI and Secure Panel (MERN , MVC , Responsive) -** [Github](#) | [Live](#) | [Admin](#)

- **Build a Secure Login System:** Developed a food-delivery app using the MERN Stack that offering the rich UI and user Login System Using a Valid email login with store password in hash form for security.
- **Payment Gateway:** Implement the payment gateway system for user that offering by Strip online payment gateway with secure payment verification.
- **Contributed To Data Security** : Contribute to enhancing data privacy using Bcrypt hashing algorithms that allow in back-end to manage the password in hashing format.
- **Admin Panel:** Attached an admin panel for managing a food delivery app, enabling order tracking and ensuring user data privacy.

**Social Media Web Application ( Responsive, Front-End, Back-End) -** [Github](#)

- **User Connection:** Worked the user interaction UI and communication through the Web application for build strong connection.
- **Security:** User Data Security, developed a JSON web token Authentication system for secure User data and protect email fishing.
- **Tech stack used:** React-Js, Node-js, HTML , CSS , JSON web Token.

## ➤ SKILLS

---

**Programming Language:** C++, JavaScript, SQL , HTML, CSS.

**Database:** MySQL, MongoDB.

**Frameworks & library:** Node-Js , Express-JS, Material Design UI, Bootstrap, Api.

**Version Control Tools and IDE:** Git-hub, Visual Studio Code, Stack Overflow, CMD, Outsystems.

**Coursework:** Objective Oriented Programming, Data Structure and Algorithms, Operating System, Database and management system Operating System.

**Soft Skills:** Communication, Planning, Teamwork, Time Management, Leadership.

## ➤ ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

---

### ACHIEVEMENTS

- Proficient Coding Skills: Achieved strong coding competence despite a non-technical background.
- Basic of Prompt Engineering with Gemini AI Tool.
- Research Paper Publication in IEEE Conference. - [Certificate](#)
- During my school time, I Selected for School decorum manager in school Function.

### EXTRA-CURRICULAR ACTIVITIES AND HOBBIES

- Enthusiastic reader with a focus on technology and innovation literature.
- In my free time, I enjoy reading book and doing working new Ideas.
- I enjoy Experimenting with new technologies. I also stay up-to-date with industry trends by reading technical blogs.
